

JUICENSE

COLD-PRESSED JUICES

it's science, baby!

JUICENSE

We make a healthier lifestyle
easier for you

We believe in the power of food and how it can be the best medicine for the body. Our products were created by New York based industry specialists, expert nutritionists and chefs working together with one goal: to help you achieve a specific purpose. All of our juices, shots and nutmilks are made with organic ingredients, each of which were carefully selected based on their nutritional properties and health benefits. Whether you are looking to detox, feel energetic, boost your immune system, or just enjoy a great tasting drink, we've got what you need.

What is a Cold-Pressed Juice?

Cold-pressed juice refers to fresh juice that is made by using a hydraulic press to extract the juice from vegetables and fruits. Therefore, this juice is 100% made from fruits and vegetables – with no added ingredients. Because no heat is applied during the extraction process, the low level of oxidation results in a juice that is flavorful, colorful and nutrient rich. Cold-pressed juices provide more live enzymes, vitamins, minerals and nutrients than regular juice.

Benefits

Drinking cold-pressed juices is a natural and efficient way of increasing your consumption of raw fruits and vegetables in just one sitting, resulting in a stronger immune system, better digestion, easier weight loss, beautiful skin and improved energy!

GREEN JUICES

BFF - BURNING FAT FAST
